Employment Experience

February 26th 2025

Immigration Refugees and Citizenship in Canada

To whom it may concern,

My name is **Olavo Pereira de Mello Neto**, and I am writing this letter about my **Work Permit** application linked to my **Startup Visa** application to provide a comprehensive overview of my **employment experience** as an entrepreneur, Chief Technology Officer (CTO), and Full Stack Developer.

My career has been built through great opportunities and challenges that have given me the chance to explore my entrepreneurial side.

- Initiated a career in front-end development at Netspeed, laying the foundation for expertise in web design projects.
- Demonstrated proficiency in HTML, CSS, and JavaScript, contributing to the creation of visually appealing websites.

Moreover, I would like to provide additional context regarding my current endeavors in Canada. I am in my first year in Canada, dedicated to overseeing the expansion of Bringfy. I have been actively involved in developing and integrating the platform with our established e-Carreto platform in Brazil. This strategic move aims to launch Bringfy in Canada next year, offering comprehensive B2B and B2C logistics services. During my time in Canada, I have engaged in crucial business meetings, fostered relationships with potential partners, and delved into understanding the nuances of the Canadian market.

My goal is to not only establish Bringfy as a prominent logistics solution provider in Canada but also to contribute to the local economy by hiring skilled individuals. Moreover, through our logistics technology, we aim to significantly reduce the carbon footprint associated with transportation, aligning with Canada's commitment to environmental sustainability.

In conclusion, my extensive experience as an entrepreneur and technology leader, coupled with my ongoing efforts to expand business operations in Canada, positions me as a valuable asset to both the local business landscape and the global technology community. I am confident that my skills, expertise, and commitment to innovation align seamlessly with the goals and values of the Canadian business environment.

Sincerely,
Olavo Mello
