Dear recruiter,

I'm Olavo Mello, a Senior Full Stack Developer with 25 years of experience building scalable, user-centric platforms across multiple industries. Having recently relocated to Kitchener, ON, I'm actively seeking a remote opportunity where I can leverage my expertise in JavaScript, TypeScript, Node.js, and React to build and maintain impactful digital products.

As a former CTO and founder, I bring not just technical skills, but also strategic thinking and leadership. My recent work includes launching Bringfy, a logistics platform built using Docker, MySQL, and the full JavaScript stack — where I led both development and server infrastructure.

I’m excited about the opportunity to contribute to a forward-thinking team and am confident that my blend of hands-on coding, system design, and entrepreneurial spirit will add value.

Please feel free to contact me at olavo@agenciadix.com.br or +1 226-978-6552 to schedule a call.
