Tell us about your technical problem

Explain your technical problem in the text box below. Include as many details as you can, like the date and time it happened. If you have any screenshots, upload them below.

I am helping my son to apply for a Visitor Visa Extension and getting error uploading the form IMM 5708e using the last form available. I tried multiple times downloading and filling again, always validating data.

Error Description: The version of the document submitted is no longer accepted.

File used: /forms/imm5708/01-09-2023/imm5708e.pdf

I need assistance ASAP due to the visa expiration date.

Best regards
